# Industrial Work Lights

## Designed for Flexibility, Durability and Performance

# SATA®

Case is lightweight and durable

Battery level indicated by LED display

# BRING

Along with having the best tools for the job, bright, glare-free lighting on the work is a basic requirement for complex assembly and repairs. When developing our new Work Lights, the SATA product development team focused on the requirements of professional automotive, industrial, and MRO users. The result was the impressive new line of SATA Industrial Work Lights, built with high-quality materials and designed for flexibility, durability, and performance.

## The SATA series of high quality Industrial Work Lights include a total of eight new products:

Area Lights, Compact Work Lights, and Flex Head Work Lights, each available in standard and high performance versions, plus two Inductive Charging Stations.

Lighting products are protection class rated up to IP65 and deliver battery life of up to 10 hours for work lights and 5 hours for area lights, with wireless inductive charging available for select work lights. Models range in brightness from 300 to 2,000 lumens.

# SATA®

Top light included

360° swivel hook for easy positioning and hands free use

**COB**

Efficient LED strip made with COB technology for a wide range of applications

**IP65**

IP65 dust and waterproof design convenient for outdoor use

Magnet in base and back for easy positioning and hand free use

Wireless or USB rechargeable lithium ion battery

Adjustable lamp stand foldsand sets to different angles

# Compact Work Light

With 300 / 600 lumens (front light) and 100 lumens (top light) of lighting power and up to 10 hours of run time, these Compact Work Lights are pocket-sized powerhouses. Their 360° swivel hook and back / base magnets let you position them anywhere. Compatible with ST90609 and ST90610 Inductive Charging Stations (sold separately).

Pocket-sized, lightweight design is easy to carry and store

# Flex Head Work Light

These high intensity Work Lights deliver a full 400 / 600 lumens (front light) and 100 lumens (top light) with a flex head design that swings open 180° and pivots 180°/ 270° to put the light exactly where you want it. Dual back/base magnets and a 180° swivel hook make hands-free positioning a breeze. Up to 10 hours run time for less downtime.

**270° / 180°** Light pivots 180° and rotates 270° to direct the beam where you need it

# Area Light

The SATA Area Lights deliver brilliant, low-glare lighting with a choice of 2,000 or 1,000-lumen. Adjustable to 100% or 50% intensity, they have a 4,000 / 8,000 mAh lithium ion battery for up to 5 hours of runtime. A 270° pivoting design provides excellent stability while directing light where it's needed most.

# Inductive Charging Station

SATA Inductive Charging Stations provide easy wireless charging with built-in magnetic connections for SATA Compact Work Lights and the ST90608 Flex Head Work Light. The Double Output model allows simultaneous charging of two lights. Both feature a maximum 1A USB output for additional capability. The wireless charging function is also compatible with most smartphones.
